

# An extensive safety management track record in Japan and abroad

The **GX-3R** Portable Gas Monitor is capable of measuring four gas components occurring in water supply and sewerage work in a single unit: oxygen deficiency ( $O_2$ ), hydrogen sulfide ( $H_2S$ ), carbon monoxide ( $CO$ ), and combustible gas. Featuring Bluetooth® functionality, the **GX-3R Pro** can also measure sulfur dioxide ( $SO_2$ ) or carbon dioxide ( $CO_2$ ) in addition to the other four components, making it ideal for safety management. Its lightweight palm-size body is dust-proof/waterproof (equivalent to IP66/68 protection rating) and certified as an intrinsically safe explosion-proof construction. Consider the **GX-3R** and **GX-3R Pro** to safeguard the precious lives of workers.
